# STUDY PROGRAMMES 2025-2026

*“Our students get a head start in becoming true artists in their own right.”*

Our intensive and innovative program offers high-level classical music education for dedicated pianists, string players, and occasionally woodwinds. We provide exceptional musical training, personalized coaching, and inspiring performance opportunities with world-class professors and guest artists. With a deliberately small and selective student body, each musician receives individual attention and guidance – ensuring a deeply personal and transformative learning experience that values quality over quantity.
